

Heritability Explained

FALSE

TRUE

- ADHD
- Alzheimers disease
- Anorexia nervosa
- Anxiety disorder
- Autism spectrum disorder
- Bipolar disorder
- BMI
- Childhood cognitive performance
- Cigarettes per day
- College attainment
- Conscientiousness
- Coronary artery disease
- Crohns disease
- Depressive symptoms
- Epilepsy
- Ever smoked
- Extraversion
- Focal epilepsy
- Generalized epilepsy
- Height
- Intracerebral hemorrhage
- IQ
- Ischemic stroke
- Major depressive disorder
- Neuroticism
- Openness
- PTSD
- Schizophrenia
- Subjective well-being
- Years of education
